

# AWFUL WRECK ON MISSOURI PACIFIC OVER ONE HUNDRED PEOPLE KILLED

## FAST TRAIN CRASHES THROUGH TRESTLE.

Passengers Are Dropped Into a Roaring  
Torrent—Cars Carried Away  
By the Flood.

PUEBLO, Colo., August 8.—One of the most terrible catastrophes in the history of the Arkansas valley, happened last evening, when train No. 11 of the Missouri Pacific, which runs over the Denver and Rio Grande tracks between Pueblo and Denver, crashed through a trestle near the little station of Eden, eight miles north of Pueblo, carrying the smoking and chair cars, which were filled with passengers, into the swirling, surging torrent which rushed underneath and so far as learned at this hour between eight and one hundred persons perished.

### SEARCH FOR BODIES.

Special trains are leaving Pueblo every few minutes and thousands of persons are patrolling the banks of the Fountain river, into which the cars were carried by the flood, searching for bodies but the stream is so swollen that but little progress can be made. As the engine struck the trestle, which had been weakened by the rush of water, it gave way and the train plunged down, one of the cars being entirely lost in the muddy stream and the other carried nearly four miles down the river. Owing to the fact that the conductor's list was lost in the confusion following the accident, only an estimate of the dead and missing is obtainable. Railroadmen say the list will range between 80 and 100, and some place it even higher.

Shortly after daybreak many hundreds of persons began swarming to the scene of the wreck and the greatest excitement prevailed in this city, where all kinds of rumors were circulated and it was with difficulty that any authentic news could be obtained.

### DRAWING THE RIVER.

The police department of this city placed men at work early patrolling the river all the way from Pueblo to Eden. Their heroic efforts have availed but little owing to the swollen condition of the stream. Much better progress will come shortly, as the river is falling and when its normal condition is reached, it is not thought great difficulty will be experienced in recovering the bodies of the ill-fated passengers. On account of having no boats and the prevalence of sickness, the idea of the river could not be reached and he it is expected that many bodies will be found.

The rescuers are suffering great hardships, many of them having been constantly at work since last night without food or relief of any kind, the cold of last night nearly exhausting them.

At 11 o'clock the river is receding slowly and bodies are being discovered on sandbars partially covered by the mud and sand washing over them. They are being taken to the city and placed in morgues, where twenty-three so far have been taken, only six of which have been identified, although the bodies have been viewed by thousands of people. They are:

### ONE HUNDRED KILLED.

PUEBLO, Colo., August 8.—Latest estimates of the loss of life by the wrecking of Denver and Rio Grande train No. 11 (the Missouri Pacific Flyer), south and east bound, at Dry Creek last night, put the total at 100 or more. It is believed there were fully 125 people on the ill-fated train and only about two dozen survivors have been accounted for.

With the breaking of day the full horror of the scene, which was concealed to a great degree by the mantle of night, became apparent. Wreckage is visible in all directions, dead bodies being visible here and there in the piles of debris. Many of the bodies were carried down Fountain creek by the wall of water, which had force enough to carry several coaches nearly four miles away from the point where they went through the bridge.

### CLOUDBURST.

The train crashed through a bridge over Dry Creek, an arroyo about 100 feet across, near Eden, on the Denver and Rio Grande Railroad. A cloudburst had filled the creek and water was flowing over the trestle when the train started across. The bridge went down under the weight of the train and the baggage car, smoker and chair car were precipitated into the torrent. The engine got almost across, but fell back into the water. The body of Engineer Dinman was found 100 feet down the creek.

All the cars were washed down stream. The express safe was found open and its contents gone. The cars were found four miles from the accident half filled with sand, in which were buried the bodies of many passengers. The cars were not located for several hours after the time of the accident.

### SEARCHING PARTIES.

When Division Superintendent Bowen reached the scene the missing cars had not been located and the passengers and train hands who accompanied him organized searching parties to follow the course of the river. The three cars were found close to the shore in Fountain creek, of which Dry Creek is a tributary, and which in turn flows into the Arkansas river.

Most of the dead were in the cars, buried under the debris. The bodies of three young women were washed up on the bank of the river three-quarters of a mile below the scene of the wreck.

J. M. Killen, a Pueblo hardware merchant, was swept down stream, but crawled out from the wreck just a mile below the scene of the accident. He was so badly injured and so exhausted from his struggles in the water that he was unable to talk coherently.

### CALL FOR SURGEONS.

When Superintendent Bowen of the Pueblo division was informed by passengers who had escaped, and who had walked through the blinding rain to the nearest telegraph station, he immediately sent a hurry call for all surgeons.

## DR. FRANK PAYNE DIES AT BERKELEY.

THE LATE DR. FRANK H. PAYNE.

## He Contracted Blood Poison While Treating a Patient.

BERKELEY, Aug. 8.—A martyr to duty, Dr. Frank Howard Payne, one of the best known physicians of this city, former Health Officer and well known fraternal and clubman, died this morning after a week's illness from blood poisoning. A few hours before death came Dr. Payne seemed to have passed the crisis of his illness but at five o'clock an attack of paralysis induced by erysipelas, seized his heart and all was over in a few moments.

Dr. Hubert N. Rowell, who with Dr. Winslow Anderson of San Francisco had attended the patient, was with Dr. Payne to the last. Yesterday afternoon when the two physicians consulted the sick man he spoke in a cheerful mood and was then apparently on the road to recovery. Mrs. Payne, who was present in the death chamber, is completely prostrated.

It is just a week ago that in attending one of the many patients who came to him for free treatment, that Dr. Payne contracted the illness that had a fatal result. The remedy was complicated to him through a small abrasion on his hand. He did not pay much attention to the cut at first but was finally seized with a chill that compelled him to dismiss his patients and cause him to take to his bed.

As the uphill fight with death began Dr. Anderson was called in to assist Dr. Rowell and yesterday afternoon they decided that the battle against the insidious disease had been won.

Just 27 years ago Dr. Payne came to Berkeley as a physician. Since that time he has filled a number of important positions and there are many who can say that he treated them freely at distressing periods in their lives. Charitable to a fault he had a number of private benefactions that are unknown to the world.

On October 30, 1880, the late Dr. Payne first saw the light of day at Fremont, Illinois. Graduating from the Rush Medical College he studied under Dr. Gunn, one of America's most famous physicians. His birthday in 1932 was the date of his marriage to Mary O. Earle of Illinois. Through his many years of meritorious service Mrs. Payne was the constant companion and helpmeet of her husband.

The deceased was exceedingly prominent in fraternal circles, being a member of Durant Lodge of Masons; Oakland Chapter, Royal Arch Masons; Oakland Commandery, Knights Templar; Berkeley Lodge, I. O. O. F.; Oakland Encampment, Odd Fellows; University Lodge, Knights of Pythias. He was also a member of the Bohemian Club and the Union Club of Berkeley.

Alameda County Medical Association, the State Medical Association of California and the American Medical Association.

He was a member of the Bohemian Club and the Union Club of Berkeley.

## FIGHTING AT THE FORTRESS

How the Japs Are Tightening  
Noose Around  
Port Arthur.

Russia Dropped Guns and  
Rolled Rocks on  
Enemy.

CHE FOO, August 8 (6 p. m.).—During the last twenty-four hours 200 Chinese and fifty Russian refugees have arrived here from Port Arthur. They almost all left there on August 4. It has been impossible to obtain confirmation of the report of the sinking of off Port Arthur of a Japanese cruiser, but that this occurred is not denied, as the vessel is said to have sunk in a place where mines have recently been laid.

Two French newspaper correspondents, who made an attempt to reach Port Arthur by a junk, saw the Japanese fleet on August 6. They were twice arrested and turned back. They heard nothing of the alleged sinking of the Japanese cruiser. They counted twenty-four vessels of the Japanese fleet ranged in a double semi-circle in front of the harbor.

### WORK OF JAPS.

The refugees report that the Russian cruiser Bayan was struck by a fragment from one of the mines which the Japanese constantly send in toward the harbor entrance. The explosion occurred at the spot just previously vacated by the Russian gunboat Glikk, which had been in that position for months acting as guardship. The Bayan bears marks of projectiles of various sizes, showing that she has been hit two hundred and eighteen times since the beginning of the war.

It is stated positively that Vice Admiral Skrydloff was not on board the Russian torpedo-boat destroyer Lieutenant Zerkoff, which visited Newchwang about a month ago and which was sunk on one of her return trips from that port.

### THE REFUGEES.

The last batch of refugees, several of whom witnessed part of the three days' fighting of the week before last, deny that the Japanese were on the (60 of a mile) from the Russian fortress. They say that the Japanese troops are from ten to fifteen versts from the inner forts.

The Japanese are busy endeavoring to work their trenches nearer the fortress. The Russian resistance to these efforts is confined to the use of artillery, which causes the Japanese to diggers. The Japanese are said to have sixty guns in position on Wolf's Hill and vicinity, and it is evidently their intention slowly and surely to tighten their noose around Port Arthur.

### ROCKS FOR ENEMY.

A refugee who witnessed the fighting at Wolf's Hill of July 26 and July 27, declares that the Russian troops defended that position, all the approaches to which had been protected with trenches at angles of 45 degrees. In many instances the Russian soldiers dropped their rifles and rolled rocks down on the enemy, with effect more fatal than their bullets.

### RUSSIAN MINES.

The Russian mines were cleverly concealed in an open field. Their composition was as follows:

At the bottom of a layer of high explosive, next a layer of rocks, and the whole covered with sand. The explosion of these mines threw the rocks for a distance of one or two versts. It is alleged that with the explosion of four men were captured, two squadrons of Japanese cavalry were wiped out by the explosion of such mines.

The witnesses confirm previous statements that the Japanese losses in this fighting were severe.

### OVER THE DEAD.

The Japanese soldiers advanced to Wolf's Hill over the ground thickly strewn with their dead. They occupied the hill by the third day the stench from the decomposing bodies, which were not interred for lack of time, became intense. Japanese prisoners are quoted as saying that one of the narrow streets of a Chinese village which was made the target of Russian batteries was packed with dead and wounded men.

The vehicles used by the Russians in removing their wounded included bledies used in pairs with a litter swung between them.

## KUROKI THREATENS MUKDEN

Russian Western Forces  
Suffer Another Heavy  
Attack.

Alexieff and Kuropatkin  
Are at Liao  
Yang.

BERLIN, Aug. 8.—The Tageblatt this morning prints the following despatch.  
"LIAO YANG, Aug. 7.—The western Russian forces north of Haicheng suffered a heavy attack today. Many wounded Russians are here.  
There is a rumor current that General Kuroki is threatening Mukden from the East.  
Viceroy Alexieff and General Kuropatkin were yesterday in Liao Yang."

### TROOPS NEGLECTED.

NEW CHWANG, Aug. 8.—A Japanese gunboat has returned here from a trip up the Liao River. She reports having fired a few shots into the sunken Russian gunboat Sivuch, which was scuttled at a point up the river, and not blown up as was previously reported.

The Russians destroyed their stores before leaving Haicheng. It is evident that they were either in a great hurry or that their transportation facilities were defective.

Newchwang is quiet and, considering the circumstances made is fairly brisk. Everybody is apparently well content with the Japanese occupation, but some persons regret the departure of personal friends among the Russian officers. Emphatic testimony is heard upon all sides as to the utter neglect of the Russian troops formerly here by their officers. The men were miserable, uncared for and hungry, while the officers enjoyed themselves at the hotels here.

The restrictions of the Japanese authorities regarding foreigners leaving the bounds of the settlement are rigidly enforced.

### STEAMER CAUGHT.

VLADIVOSTOK, August 8, 11 p. m.—The British steamer Calchas, from Tacoma for Japanese ports, which was arrested by the Vladivostok squadron thirty miles north of Tokyo Bay during the recent cruise of the Pacific Coast of Japan arrived here today in charge of a prize crew. She was a week overdue, having been detained by fog. The Calchas is the last vessel captured by Admiral Jesso's cruisers. The papers of the Calchas showed she was carrying 370 tons of flour, nine tons of cotton 215 cogs and 125 parts of machinery all consigned to Yokohama. The remaining 1500 tons of the cargo were consigned to Hong Kong.

The steamer Calchas was bound from Hong Kong to Europe and carried sufficient coal to go to Yokohama. Therefore it was decided to send her to that port in charge of Lieut. Stakelberg and 41 men from the Rurik. The transfer of the prize crew to the steamer was attended with the greatest danger owing to the heavy sea which was running at the time.

### HOLD CONFERENCE.

ST. PETERSBURG, August 8.—5:30 p. m.—An important conference on the military situation was held at the Peterhof palace today.

The ministers of war and marine the Grand Duke Alexis, the high admiral, General Goltz, one of General Kuropatkin's aides-de-camp, who had just arrived from the front with personal dispatches from the Emperor and others, were present.

## SMALL BOY HANGS HIMSELF.

He Was Caught in a  
Noose While in  
a Stable.

ST. LOUIS, August 8.—The fifty-fifth annual meeting of the International Typographical Union of North America, with representatives of 700 subordinate and affiliated bodies and from various parts of the United States and Canada, met today, and will continue in session during the week. Arrangements have been made whereby all union printers will be admitted to the fair grounds on Wednesday free.

The coroner's jury brought in a verdict of accidental hanging. The boy was of a cheerful, healthy disposition, and had laid plans for the future.

He went to the basement to get some grain for his horse, and a few minutes later was found dead, a noose used for holding up a saddle being about his neck.

His feet were still on the floor, and the coroner gave it as his opinion that the boy in reaching into the bin for oats, accidentally got his head in the noose, slipped and was strangled.

## ANNUAL MEETING OF PRINTERS.

ST. LOUIS, August 8.—The fifty-fifth annual meeting of the International Typographical Union of North America, with representatives of 700 subordinate and affiliated bodies and from various parts of the United States and Canada, met today, and will continue in session during the week. Arrangements have been made whereby all union printers will be admitted to the fair grounds on Wednesday free.

# OAKLAND SCENIC BOULEVARD WILL COST \$301,000.

## Supervisors Ask for Bids for the Grading and Bridging of Finest Driveway in America.

The estimated cost of the Oakland Scenic Boulevard, which is to be built by the Supervisors of Alameda county and to connect this city with Hayward, covering a distance of ten miles, \$301,000.

### SURVEYOR'S ESTIMATE.

This is the figure at which the great undertaking may be completed, according to the idea, the plans and specifications filed this morning with the Board of Supervisors by County Surveyor Prather.

### BIDS ASKED FOR.

For the purpose of pushing the great enterprise to completion, the Supervisors immediately ordered advertisement for bids for the work, which bids will be received at the office of the County Clerk up to 11 o'clock a. m. August 21 of this year.

### GREAT UNDERTAKING.

This work is the most extensive and varied ever accomplished in a single road contract in this county by reason of the extent of territory to be covered by the road and the amount and kinds of work to be performed.

The plans are on a scale of elaboration never before known in the history of the County Surveyor's office. They

represent the work of months on the part of County Surveyor Prather and Deputy Haviland and a corps of other assistants. They show, among other things, about 150 profiles of narrow lengths of grading, cross-sections, drawings and dimensions of drainage pipes, culverts and bridges of various sizes all of which are to be constructed of masonry of the most enduring character.

The largest of the bridges will be located near Hayward and will have a span of sixty feet over San Lorenzo creek.

### NO TUNNEL CUTS.

There will be practically no "cuts" along the route save such as may be made on a side hill, and, in no instance will these obstruct the view of the beautiful panorama of Alameda county, the distant bay and the rugged scenery of the surrounding counties of the bay of California.

### WORK TO BEGIN SOON.

As soon as the contract shall be awarded work on the Oakland Scenic Boulevard will be undertaken and pushed forward as rapidly as possible with a view to attracting to it the attention of tourists and pleasure-seekers from the East who may be sojourning in the Southern part of the State.

## FAST TRAIN CRASHES TROUGH TRESTLE

(Continued From Page 1.)

nurses in the city to follow him on relief trains, and taking an engine and car, ran quickly to the scene of the wreck. One train followed another from the city in quick succession and every available car was responded to the call. It was assisted by a large supply of medicine and a number of nurses. In the meantime measures were taken for the equipment of a hospital train and that left Oakland later in the night. In addition, to the surgeons and nurses, a cohort of doctors was sent out.

### THE VICTIMS.

Passengers on the Pullman were 11 the meantime attempting to assist the victims, but no force could be used at the cars which had been precipitated into the stream. The water was so deep that the engine and tender were entirely immersed and the train was fairly torn to shreds by the force of the water. The engine struck the trestle it seemed to rear up and fell to the right, or engineer's side. The train jumped and escaped.

### CRISIS FOR HELP.

The operator at Eden, a mile away, heard the cries for help and rushed to the creek. When he got there he found the engine and tender had been precipitated into the water. The water was so deep that the engine and tender were entirely immersed and the train was fairly torn to shreds by the force of the water. The engine struck the trestle it seemed to rear up and fell to the right, or engineer's side. The train jumped and escaped.

It is probable that a complete list of the dead will not be made known. The conductors' reports were on his person and have not been received.

### BODIES RECOVERED.

PUEBLO, August 8.—Another train has been wrecked here, the second of the week. It has on board the bodies of some of the victims. Eighteen bodies have been taken from the wreck when the train left Eden. They were so covered with mud that only a few could be identified. The following have been positively identified:

MAJOR W. H. WHITMAN, from some point in Kansas. He was identified by one of the rescued passengers, who was traveling with him just before the disaster.

J. T. REED, express messenger.  
CHAS. HINMAN, engineer.  
J. H. SMITH, conductor.  
VINA SIBLEY, photographer for Congressman Hogg.

The following are known to have been on the wrecked train and are believed to be dead:

MISS MINEOLA DAVIS, 18 years old, Pueblo.  
MRS. GEO. F. WEST, Pueblo.  
MISS IRENE WRIGHT, Pueblo.  
MISS EMMA WOOD, Pueblo.  
MISS TURNER, brakeman.

MISS IDA LEONARD and two relatives from Chicago and Lasalle, Ills.  
MISS SALLIE PINE, of the Colorado Telephone Company.  
MISS TILLIE THOMPSON, Franklin, Mo.

MRS. JAS. McKEE and child and Mrs. MRS. SR.  
Infant daughter and sister-in-law of Harry Johnson, prominent Pueblo merchant.

The work of rescue is progressing well. A score of nurses and surgeons are relieving the sufferers of the injured and hundreds of workers are struggling to recover bodies of the dead.

A force of nearly 300 well organized men are now working under the direction of able officers and rapid developments are promised.

Many persons reported as lost earlier have since been located, and many of them have narrow escapes, some of them being severely hurt. The escape of the fireman, Dave Mayfield, was almost miraculous, crawling from the cab in which his companion, the engineer, had perished. He searched vainly for the latter, finally abandoning the effort and walked the distance to the station and gave the alarm. He then collapsed and was brought to the hospital in a serious condition.

### HUNTING RELATIVES.

John M. Killen of Pueblo, who had a narrow escape, being found an unconscious man taken from the top of a car which had washed down the river. Up to noon ten more bodies had been taken to the identified list, but the merciful rain and such a confused atmosphere that identification was necessarily slow. The list of missing also has been augmented considerably and now exceeds 100. It adds to the horrible details of the story.

The work apparently was being conducted with as much system as was possible, bodies being taken to one place and recognized and many of them being taken away immediately, and several sent to their homes in other cities.

The streets of this city present a picture such as probably never was witnessed before. Women and men are to be seen rushing frantically from one place to another, wringing their hands in anguish and imploring those supposed to be in possession of information to tell them the fate of their relatives and friends, and every few minutes a wail can be heard as they have found what they have sought for; yet hoped not to find, the horrible reality that their friends were confirmed.

DENVER, Colo., August 8.—Passenger Train No. 11 of the Denver and Grande Central Pacific World's Fair Flyer is the fastest train sent out of Denver by the D. & R. G., and usually carries a heavy passenger list. The train, made up of six cars—express, smoker, diner, chair car and two sleepers. Nearly every coach was well filled when the train pulled out of Denver at 5 o'clock.

DENVER, Colo., August 8.—Officials at the headquarters of the Pacific Railroad Commission explain that the road has no other connection with the St. Louis and San Francisco Railroad, which wrecked last night than to care for its passengers who transferred to its waiting train at Pueblo for eastern points.

The wrecked train was made up of rolling stock of the Denver & Rio Grande road and manned by men of that line.

(Continued From Page 1.)

between them. A detachment of six cabs was sent out on July 26 to bring in Russian wounded. On the 27th these cabs returned for more wounded to a place they had visited the day before. It was found, however, that this place was then occupied by the Japanese, who captured the outfit of the cabs.

LOST OFFICERS.  
On July 27 two detachments of machine guns and soldiers numbering 250 men, lost every commissioned officer as a result of the first volley fired by the Japanese. The men of this detachment, therefore, sent a delegation to San Francisco and requested that he send them the officers under whom they had previously performed exceptionally brilliant services, and to which Gen. Stoenkel had sent them special thanks.

By the night of July 27 the Russian soldiers had been fighting for forty-eight hours with a minimum of rest, food and water. They were then relieved by reserves, who arrived at the lines led by a general playing the national anthem. At the conclusion of the fighting, the Russian soldiers were taken to the rear and placed in the hands of the Japanese. A proclamation issued by General Stoenkel, commander-in-chief at Port Arthur, thanking the soldiers for their heroic fighting, was then read to the troops, who were then taken to the rear. The Russian soldiers were then taken to the rear and placed in the hands of the Japanese. A proclamation issued by General Stoenkel, commander-in-chief at Port Arthur, thanking the soldiers for their heroic fighting, was then read to the troops, who were then taken to the rear.

At the meeting of the Supervisors this morning, County Surveyor Prather, William Roberts and J. H. Gansberger, witnesses, reported in the matter of the opening of a road leading from the San Leandro and Hayward roads to San Lorenzo, thence southwesterly to the lands of the heirs of U. S. King and Margaret Watson. They showed that the amount of land to be taken for the road from the King property is 3.46 acres and from the Watson property .374 acres. The allowance made for the King property is \$675.80 and for the Watson property \$239.20. The estimated cost of grading the road is \$100.

Attorney Madden appeared for the King heirs and said that if the county should condemn the said he would be more satisfactory to the heirs. Otherwise, as the King property was held for minors, the guardian could do nothing without petition of the courts, which would entail expense, which, of course, would fall upon the heirs. That expense, he thought, ought to be considered in the allowance of the board as damages.

Supervisor Talcott thought that the viewers had come pretty near making an ample allowance.

Madden wanted to know whether the Supervisors would bear the expense of removing and replacing the fence which would be affected by the making of the proposed road.

Supervisor Talcott said that the cost of replacing the fence, if a wall allowed, would have to come out of the road fund of that district when it had for a long time, been in almost an impoverished condition, and was now able to make such allowance. The money expended in replacing the fence would be just so much money taken away from the improvement of the road to be not in favor of having the county remove fences for private individuals.

After consultation with Mrs. King, the guardian, Attorney Madden said that that lady would not agree to accept the award unless in addition to it, the cost of removing and re-erecting the fence should be born by the Supervisors.

Supervisor Talcott said he was ready to proceed with the improvement of the thoroughfare, but that he could do nothing until the matter of a ward had been decided upon. If the county should agree to the removal of the fence, the Board would simply provide money for the purpose, requiring the actual work of removal to be performed by the land owner.

The matter was finally continued till next week.

## AUGUST THE MONTH FOR ECONOMY

At the Taft & Pennoyer store, at least, August is the month when economy is easy. It is the month of preparation for fall business; the month when stocks are cleaned up and summer goods guilloined. All this means that prices are at their lowest tide and bargains plentiful.

Take today's announcement for instance:

### Fifty cents buys a Dollar's worth in the China Department

The half-price sale of china and bric-a-brac opens its second week with even more attractions than those on the boards at its start. New articles have taken the place of those sold on the heavily laden tables.

Here are a few of the offers they make:

Decorated china chocolate pots—were 75c—half price.....38c  
French china jars with tray—were \$1.00—half price.....50c  
China cake plates in forget-me-not pattern with fancy gold borders—were \$1.00—half price.....50c  
Beautifully decorated Bohemian glass bud vases—were \$1.00—half price.....50c  
Pyro-etched and tinted photograph frames for groups—were \$2.75—half price.....\$1.40  
Belgian Smoker set of six pieces—was \$3.50—half price.....\$1.75  
Iridescent Venetian glass cordial glasses—were \$4.00 per dozen—half price.....\$2.00 per dozen  
English china dessert plates—were \$5.50—half price.....\$2.75 per dozen  
French china soup plates, decorated in Dresden patterns—were \$18.00 per dozen—half price.....\$9.00 per dozen  
Terra Cotta busts by celebrated Vienna artists—were \$20.00 each—half price.....\$10.00 each

### Suits at Half Price and Less

The Woman's Wear Store offers endless opportunity for economy. So slight will be the difference between summer and fall styles that one may buy a summer suit knowing it is right in cut, and save as much as 50 per cent upon it. Two alone, of many reductions, we mention today:

One of them is a suit of mixed Scotch tweed. The jacket is a bloused cuff, single-breasted, with fancy cape collar and full sleeves. Its vest, cuffs and girdle are trimmed with black and white silk braid, and it is satin lined. The skirt has seven gores and flares wide—formerly \$20.00—now.....\$10.00

The second is a more elaborate suit of a tweed mixture. It has a short fitted jacket with broad-cloth vest and a triple collar. The skirt has seven gores and is handsomely trimmed. The jacket is lined with silk, and the skirt has a heavy drop—formerly \$27.50—now.....\$12.50

### Ladies' Neckwear Never Lower in Price

Ties and Stocks

Soft bow stocks embroidered in colors—formerly 65c—now.....25c each  
Wash stocks and bows trimmed with dainty colored medallions—formerly 65c—now.....25c each  
Ties of heavy French mousseline with narrow colored borders—formerly \$1.00—now.....50c each

### Lace Stole Collars

Collar of ecru Venise lace and etamine—reduced from \$1.75 to.....\$1.25 each  
Ecru Venise lace collars—reduced from \$2.00 to.....\$1.50 each  
Stole collars of ecru Venise lace and etamine—reduced from \$4.00 to \$2.00 each  
Collars of ecru Chiny lace and etamine—reduced from \$5.00 to.....\$2.00 each  
Ecru Venise lace collars—reduced from \$5.00 to.....\$2.00 each

### An August Sale of Silk Skirts

In anticipation of the immediate arrival of an autumn stock, the silk skirts now on hand have been placed on sale after being unsparingly blue-penciled.

### Black Silk Skirts

Drop skirt of black taffeta with accordion pleated flounce and double ruffles—reduced from \$7.00 to.....\$5.00  
Drop skirt of silk with 10-inch flounce, edged with narrow ruffles—reduced from \$8.00 to.....\$6.00  
Skirt of heavy black taffeta with deep tucked flounce and accordion pleated at the bottom—reduced from \$9.50 to.....\$7.50

### Colored Silk Skirts

Skirts of light blue silk finished with double ruffling and accordion pleating—reduced from \$12.50 to.....\$10.50  
Light pink silk petticoats with deep flounce finished with narrow accordion ruffles and pink ruching—reduced from \$14.50 to.....\$12.50

## ROUTINE OF THE SUPERVISORS.

MATTERS OF INTEREST HANDLED  
AT THE SESSION THIS  
MORNING.

The Board of Supervisors this morning were notified by the State Board of Equalization to appear at Sacramento before the latter body on Monday, August 15, at 10 a. m., to show why the State equalizers should not carry out their purpose of increasing the entire assessment roll of Alameda county.

FRANCHISE ABANDONED.  
Rev. J. A. Brandes, pastor of the Lutheran Christian Church, requested that the property of that organization be exempt from taxation.

chise granted to him for a street railway franchise in Pleasant Valley, connecting with the Webster street line. The rules were suspended and an ordinance was adopted accepting the franchise surrendered by the votes of Supervisors Kelley, Horner, Talcott and Rowe, Supervisor Mitchell being absent.

AUDITOR'S FOOTINGS.  
Auditor Bacon sent in a communication received from Clerk Colgan the State Board of Equalization, touching an extension of time for the completion of the footings of the equalized assessment of the county, as follows:

"The State Board of Equalization has granted your request for two weeks extension of time to complete the footings of the assessment roll, but as that will bring it in a little late, they request that you furnish the footings as made by the Assessor, with any changes made by the county board, as early as possible, subject to correction of errors should you discover any later."

The communication was ordered spread on the records of the board.

CHURCH TAXES.  
Rev. J. A. Brandes, pastor of the Lutheran Christian Church, requested that the property of that organization be exempt from taxation.

SALOON LICENSES.  
Saloon licenses were granted to August C. Jacobson, Fruitvale, and H. Goelich, Elmhurst.

The application for a liquor license of Chris Elferle, Old County road, between Rutherford and Fruitvale avenues, was continued for one week at the request of Supervisor Talcott.

DAMAGED BY FIRE.  
STRASBURG, Alameda-Lorraine, Aug 8.—The damage by the fire which has destroyed a large orphan asylum and the Magdalena Church, amounts to \$1,500,000.

# FIRE RAGES IN NORTH.

Town of Wallace is Swept By Flames.

WALLACE, Idaho, August 6.—Scores of people were rendered homeless and nearly \$100,000 worth of property was destroyed by fire, that swept Black Bear, a small town between Wallace and Burke, Idaho, last night. With the exception of a dozen small cottages in each end of the town there is not a building left standing.

# APPEAL OF LITTLE GIRLS.

CHICAGO, August 6.—"Take mother out of the packing house so we can have her care at home."

Two hundred little children, dressed in white and waving tiny flags, bore these words as they surrounded the beleaguered packing town in a formidable but peaceful array today. Business was practically suspended in the streets until shortly after noon, when the last of the procession marched toward a big grove where a picnic was given to increase the fund for the support of the strike.

# TEAMSTER PROBLEM.

CHICAGO, August 6.—Consideration of the question to call out truck teams and other teams hauling meat from warehouses and formally forbidding delivery of ice to dealers hauling meat from the combination packers was again postponed today by the executive committee of the Allied Trade. It was decided that nothing could be done with the teamster problem until the return of the Teamsters' Union officials from New York this evening and the other members of the committee in Cincinnati. The action taken then will depend largely on the attitude assumed by the ice teamsters' organization.

# REPUBLICANS WILL MEET.

NEW YORK, August 6.—The first meeting of the Republican National executive committee, eastern division, will be held Monday. Chairman Cortright will arrive in New York this evening and the other members of the committee, Messrs. Brooks, Scott, Murphy and Ward, will be here Monday.

# NO SICKNESS AN CAPITOLA.

The report that has been circulated that Capitolina is in quarantine for scarlet fever is absolutely denied by the authorities in that quarter. There has been no illness there of any kind during the entire season. There is not a single case of scarlet fever in Capitolina.

# YOUNG MOTHER DEAD.

Mrs. Grace F. S. Walker, wife of O. H. Walker, died yesterday at her residence on Brown street, between Fifth and Sixth streets. The deceased was twenty years of age. She was the mother of twins, which are reported to be doing nicely. The remains of the young mother will be interred in Olinda, Shasta county, for interment. She was a native of Iowa.

# LONDON WILL NOT FIGHT.

Novelist Will Allow His Wife to Get a Divorce.

Jack London, novelist and newspaperman, is to be spared having to make a defense to his wife's charges in her first divorce complaint, and today a second complaint was filed, containing the simple allegation of desertion. The name of Miss Anna Strunsky, who was alleged to have been the cause of more of the unhappiness of the London in the first complaint, is entirely omitted in the second, as are also the charges of unfaithfulness made against him.

London was asked to sign the copy of the papers on June 29, before he left the steamer Korea upon his return from the Orient, where he had gone as a war correspondent. The statutory month has elapsed without his having made an appearance in the case and Mrs. London was entitled to a default judgment several days ago. This morning, however, the first action was dismissed and a second begun. There is no doubt now but that the proceedings are to be carried out to the end and that a divorce is the ultimate end in view.

In regard to the dismissal of the first action and the bringing of the second, it is explained that in order to protect Mrs. London's property interests in the matter the strongest charges possible were made against London in order to make him acquiesce more readily in any arrangement of the property interest that might be suggested. An injunction was also issued restraining him from drawing any salary or collecting any of the royalties from any of his works.

That the property interests of the pair had been settled out of court was stated to Judge W. E. Greene a week or two ago, when he was asked to set aside the restraining order keeping London from drawing his salary or handling any of his funds. Once these interests were settled the necessity to press the graver charges against London was done away with when an easier way out of the difficulty was at hand.

# PHYSICIAN MUST ANSWER CHARGE.

SAN FRANCISCO, August 6.—Dr. Charles S. Misch, a prominent local physician, was arrested this afternoon by Detective Ed Giblin and Graham on a charge of performing a criminal operation. He was taken to the City Prison.

Edna Simpson, a young country girl, who has been staying at 2706 Bush street, is the complaining witness. She is at present at the City and County Hospital. While her condition is serious, the attending physicians say that she will recover. She is 19 years of age and comes from Ripon, a little town near Stockton.

# SHOT HIMSELF.

MONTREY, Cal., August 6.—Sergeant Robert Simmons, of the Fifteenth Infantry, has committed suicide at Ord Barracks by shooting himself with a rifle. The cause is unknown.

# JUSTICES AND CONSTABLES WILL COLLECT SALARIES.

Justices and Constables Will Get Money Due Them.

Justices and constables, it has been decided, may draw their salaries as has been customary. The score over the effect of a recent decision of the Supreme Court has been at last by a second decision, which District Attorney Allen gave this morning to govern in this county and has advised Auditor Bacon to pay the salaries of constables and justices which have been held up since the first of the month. This will now be done.

Following is the opinion rendered by District Attorney Allen this morning: "Hon. G. W. Bacon, Auditor of Alameda County, Oakland, California. 'Dear Sir: Following the opinion in Tucker vs. Barnum, under which you requested advice as to your action concerning justices and constables' salaries, the Supreme Court handed down an opinion in McCauley vs. Culbert, in my estimation, exactly fits the case in this county. As I advised you in the opinion given to you the former case that our county differed from Fresno county, still it would be advisable not to pay the salaries on the ground taken in the former case. McCauley vs. Culbert, in my estimation, decides positively in favor of the justices and constables in this county receiving salaries and I therefore advise you to draw warrants for the salaries of justices and constables as you have been doing in the past under the County of Fresno. Very respectfully submitted. JOHN J. ALLEN, District Attorney Alameda County.'

# INCREASE BAIL OF SCAVENGERS.

The attempt of the scavengers to again use the West Oakland marshes as a dumping place for garbage has resulted in the police taking vigorous measures to prevent it. Three of the offenders were arrested yesterday and were arraigned before Police Judge Samuel H. Hays this morning. He has mandated jury trials through their attorney, James Creely. Their cases will come up in September.

The scavengers have been using Bay View park as a place for depositing refuse. By taking the garbage collected there and dumping it in the city lot jurisdiction. Bail in the cases now pending has been set at \$500 instead of \$50 as in the previous arrests.

# CHINA SAILS FOR THE ORIENT.

SAN FRANCISCO, August 6.—The Pacific Mail steamer China sailed today for the Orient, via Honolulu. No freight was taken for points in the war zone, but the vessel carried a cargo of 3000 tons, including cotton and flour. Among the passengers were Governor of Hawaii, twenty Presbyterian missionaries for Shanghai and Yokohama and eight city of appointees for the Philippine service.

# BURGLARS TRIED TO ENTER HOUSE.

S. J. Ryder, residing at 117 Athol avenue, reported to the police today that two men burglarized his residence last night. He heard their efforts to open the kitchen window, and prepared to receive them. The burglar became alarmed when they were discovered and fled into the darkness without attempting to enter the house. Nothing of value was taken.

# BUCKLEY WILL HAVE TO HANG.

SAN FRANCISCO, August 6.—William Buckley, convicted of the murder of Gen. W. A. Richardson, sentenced to be hanged on October 10th.

# PUBLIC SCHOOLS OPEN.

PARENTS PROTEST AGAINST VACCINATION OF THEIR CHILDREN.

All of the public schools of Oakland opened today with a full attendance. Superintendent McClymonds reports that many of the schools are crowded. The prospect of a successful school year are unusually bright.

# GOVERNORS REPLY TO VALLEJO'S REPLY TO GOVERNOR.

Declare That Union Men Did Not Commit Murder.

DENVER, Colo., August 6.—A reply to Governor James H. Peabody's explanation of his course in connection with labor troubles in this State was made today by President Charles H. Moyer and Secretary-Treasurer Wm. D. Woodwood, of the Western Federation of Miners.

The Governor's charge that the press has been unfair in its comment on the situation in Colorado is controverted. The press has not used the name of the knuckledrummers, but merely the name of the Federation officers. The Federation officers, however, have been the fair name of Colorado, lie at the door of the executive chamber of the State capital.

Replying to the Governor's assertion that he has waged war only against the Western Federation of Miners and is friendly to other labor organizations, the Federation refers to the employment of troops to deport coal miners from Southern Colorado.

"Ah, yes, beloved Peabody, you love organized labor so well that if you were Governor of Illinois, the people of the State would have heard the crack of military rifles behind the stockades of the packing companies of Chicago."

The Western Federation of Miners has at no time, in all its history, attempted to enter the courts. Its members, when charged with crimes, have been willing to enter the sanctuary of a judicial tribunal and be tried by a jury of their peers. The Federation has never been in the State of Colorado during the present strike, where the membership has been charged with crimes, have been willing to enter the sanctuary of a judicial tribunal and be tried by a jury of their peers.

The cases that were tried before the courts of Denver during the strike were brought in a verdict of acquittal. In the cases that were tried before the courts of Denver during the strike were brought in a verdict of acquittal.

# GRAVE CLOSES OVER REMAINS OF GENTLE CULTURED LADY.

This morning the remains of Senorita Guadalupe Vallejo, niece of Gen. Don Jose de Jesus Vallejo who was consigned to their last resting place in Calvary Cemetery San Francisco and thus closed the last chapter in the career of a gentle woman which commenced in California long years before the plains and mountains with their untold wealth came under the domination of the government at Washington.

Miss Vallejo had attained the age of 82 years and was the favorite niece of Gen. Don Jose de Jesus Vallejo who was in command of the Spanish and Mexican troops at the time of the occupation of California by American troops.

# FAMILY HISTORY.

Don Jose de Vallejo and Donna Soledad Sanchez y de Oregua were her parents. Don Jose was the eldest, three years older than the other. He was a member of the family of engineers and a member of the expedition sent by Spain's king to colonize Alta California. The family pedigree is registered in the Spanish archives. Although possessed of vast wealth in stock and lands, the holdings of the senorita's people gradually dwindled away with the breaking up of the Spanish land grants. Among the talented members of the family are Miss Antonita Vallejo, a musician and Mrs. Carmelita Huhn, a painter.

The deceased leaves a sister, Mrs. E. L. Kern, who resides at 518 Telegraph street in this city; two nephews, Conrad E. Kern and R. E. J. Kern, well known musicians also of this city; and a niece, Miss Antonita Vallejo.

# EARLY YOUTH.

In youth, she had been esteemed a beauty of the pure Castilian order and had been engaged to a large number of the gay and chivalrous cavaliers of the time, but all their offers of rank, power, prestige and wealth were gently turned aside, and, as a consequence, the grave closes over her as the heroine of a romantic ideal which had never been realized. She remained constant to a vision of love which had enraptured her during early girlhood and so true to it in her heart that even advancing years were powerless to dislodge it.

# DAYS OF OLD.

The deceased was one of the few survivors of that early day, so fraught with interest to both the people of the State of California and the world, the election of the time was one of the charms in which she found solace in her declining years.

# THRICE A SUBJECT.

Few there are now who could say with her that they had been subjects, at different times, in the same place, to the governments of Spain, Mexico and the United States.

# LIVES IN HISTORY.

There were few events of importance during those transitions, of a historical, intellectual or social character, with which Senorita Vallejo was not familiar and her name has gone down to history as having borne an important part in many of them.

# MENTAL CHARACTERISTICS.

The senorita had, with the passion of the pure Castilian, within a gentle and modest exterior, a fervid character with an exceeding charm and these were intensified by a mind perfectly trained by the best of instructors of the time and enhanced by decorative and accomplished worthiness of a lady of the regal court.

# BORN IN THIS COUNTRY.

Senorita Vallejo was a native of Mission San Jose in this country where she resided for years. She saw the rise and fall of the mission and a population of thousands of Indians who absorbed civilization at the same time that they acknowledged the truths of Christianity, who tilled their fields and contented and sowed their flocks and herds. She was not far distant when she saw the aborigines scattered and the broad acres of the mission acquired by settlers from distant climes.

# RESIDENT OF OAKLAND.

After removing from the mission, she was engaged in translating "San Juan" for Gen. Lew Wallace, into Spanish, a commission which was a compliment, because it was not granted until after the exacting work of that English classic had been convinced that the rendition into the language of Castile and Aragon would be such as to insure it a welcome in the land beyond the sea.

# PATRIOTIC WORK.

The hymn "America," "The Star Spangled Banner" were translated into this gentle patriotic woman into Spanish. This translation is now used in text books in the Cuban and Philippine schools.

# UNFINISHED WORK.

At the time of her death, Senorita Vallejo was engaged in translating "San Juan" for Gen. Lew Wallace, into Spanish, a commission which was a compliment, because it was not granted until after the exacting work of that English classic had been convinced that the rendition into the language of Castile and Aragon would be such as to insure it a welcome in the land beyond the sea.

# PRIEST PASSES AWAY.

MINNEAPOLIS, Minn., Aug. 6.—Rev. Patrick P. V. Hartigan, prior of the Holy Rosary Convent of the Dominican Fathers, died here of congestion of the brain, aged 48 years.

# VALLEJO'S REPLY TO GOVERNOR'S REPLY TO VALLEJO'S REPLY TO GOVERNOR.

CHICAGO, Aug. 6.—When the doors of the Crocker Trust & Savings Bank opened today about 150 persons were in line to withdraw deposits, continuing the run begun on the bank yesterday.

Police were again on hand to prevent disorder. The bank was crowded and many persons formed in line on the sidewalk outside waiting to withdraw funds.

Discovery was made today that anonymous letters constituted the principal medium used to bring about the run. These were written on the stationery of the Hotel Waldemere and in some suggest that the run was brought about as an attack on Edward Tilden, a brother of the vice-president of the bank.

# VACCINATION FREE TO PUPILS.

City Superintendent of Schools McClymonds has issued the following circular relative to vaccination.

"Oakland, Aug. 6, 1904.—To the principals of the Oakland School Department: Any pupil whose parents are pecuniarily or otherwise unable to pay for the vaccination of children, can procure the same by applying on the proper blanks, and filling the same with the secretary of the Board of Education. Upon doing so, an order will be issued for free vaccination.

This vaccination can be had at the private office of the Health Officer, 1933 Broadway daily between 3 and 5 p. m. (except Sundays) or at the Health Office, (old library building) on Fourteenth street, on Saturday mornings from 9 to 10 a. m."

# S. J. GRAY UNDER ARREST.

S. J. Gray, a representative of a get-rich-quick concern known as the Pacific States Mercantile Company is under arrest at the County Jail on a charge of having defrauded the company. Attorney General Webb began a suit two days ago in San Francisco to have the company dissolved on the ground that it was an illegal concern and promised to give investors a return of \$500 for \$50.

Gray is charged by Samuel Epstein, vice-president and manager of the concern with having collected \$281.50 and failing to turn the same over to the company. Gray says the arrest is malicious but refuses to discuss the matter. His bail has been fixed at \$2,000 by justice of the Peace Quinn.

Gray has telegraphed to friends in San Jose to help him out of his trouble.

# CLERK HENNESSY IS ROBBED.

Police Clerk William Hennessy lost his bicycle today, which was within ten feet of the door of the City Prison. Detective Shorey has been called to the case, but thus far has been unable to procure a clue as to the identity of the thief.

# ACCIDENTALLY SHOT.

WALNUT CREEK, Aug. 6.—Ewalt Thiel, of No. 1215 Kearney street, San Francisco, had a leg almost blown off just below the knee this morning by the accidental discharge of a shot-gun in the hand of his cousin, Paul Schmidt, also of San Francisco.

The boys had been playing for two or three days near Rose bridge, about a half mile out of town here. This morning they were sitting along the creek near the bridge and Schmidt had the gun resting on his knees and was fooling with it. He did not notice that the gun was cocked and he pulled the trigger.

# POLYTECHNIC BUSINESS COLLEGE.

PLANNING A GREAT SCHOOL.

The proprietors of the Polytechnic Business College are making plans for the most elegant and complete commercial institution in the west. Their magnificent building will be finished some time in October. They have already been given for several thousand dollars worth of new furniture and equipment which will be installed in the new building as soon as it is completed.

It is the ambition of Professors Gibson and Ingram to make Oakland the home of the best business college in California. A greater school for "Greater Oakland" however, is now contemplated by these energetic men, and in their new quarters they will see their splendid institution reach still higher and broader fields of usefulness.

Oakland is to be congratulated in having the best business college on the Pacific coast. An institution conducted on such business lines as commands the confidence and respect of every citizen in the State.

# SARATOGA, N. Y. Aug. 6.—

The Saratoga special, value \$22,000, 515 furlongs.

Synsby, 1 to 20, and out; won; Hotshot, even, place, second; Britisher third. Time 1:07.

# DOES NOT AGREE WITH RUSSIA IN REGARD TO CONTRABAND.

WASHINGTON, August 6.—"The recognition in principle of the treatment of coal and other fuel and war might ultimately lead to a total prohibition of the sale of neutrals to people of belligerent states of all articles which could be finally converted to military use. Such an extension of the principle, by treating as absolute contraband of war, simply because they are shipped by a neutral, to a non-blockaded port of a belligerent, would not appear to be in accord with the reasonable and lawful rights of a neutral commerce."

This is a summary of a declaration by Secretary Hay on the rights of neutrals during the war. It was embodied in a circular to American ambassadors in Europe and was issued from the State Department June 19 last, but for some reason was withheld from the public although certain shippers who inquired of the department as to their rights were supplied with copies.

The circular is based on a declaration by the Russian government that cotton, naphtha, alcohol and other fuels have been declared contraband.

# OPPOSES SALOON OF C. F. BOS.

WARM SPRINGS RESIDENT SAYS APPLICANT'S PETITION IS INVALID.

As a rule, the protests against saloons with which the Board of Supervisors have to deal come from Fruitvale or the San Leandro road before San Leandro is reached. Years have elapsed since a protest was filed from Washington township, and that protest was to have been heard by the board today, but was continued owing to the absence of counsel for the applicant for the license, C. F. Bos of Warm Springs.

William Curtner, who has taken a decided interest in the protest, appeared before the board this morning for the purpose of opposing the granting of Bos' request.

The Supervisors, however, decided that it would not be right to listen to Curtner's request without affording the applicant or the applicant's attorney an opportunity to cross-examine him.

Curtner declared to the Supervisors that Bos' application did not have the required number of the ten nearest residents and heads of families. He asked, also, whether a non-resident land-owner could be counted as one of the ten nearest residents and was informed by Supervisors Horner and Tait that a non-resident land-owner was not so counted.

Among the ten nearest residents, the requirement of the law comprehending residence is well as ownership. Curtner said that on Best street, in Los Angeles, he knew of some who resided in San Francisco but who happened to own property near the proposed saloon. He also made out a list of persons. Bos has been conducting a saloon for some time in Warm Springs.

## Bad Advice to Workingmen.

The Redding Searchlight, which advocates Socialism, prints a lengthy editorial, emphasized in places by capital letters, which we deem worthy of reproduction:

"Refusal by the Grass Valley military company to participate in the annual encampment of the National Guard of California, prompted as it was by the strong union-labor sentiment of the Nevada County mining camps, recalls the fact that there is a deep-rooted antipathy in the ranks of organized labor toward acceptance of service in the State organizations of citizen soldiery.

"And this increasing repugnance is not without reason.

"So often has the militia been used for partisan purposes to defeat the perfectly laudable aspirations of the working-class, the wonder is that unorganized workers can still be found willing to enter the service.

"At the same time, we believe the cultivation of union sentiment against service in the National Guard is a mistake. This is not a question of patriotism, but one of policy.

"If a matter of PATRIOTISM, how could there be room in the citizen soldiery except for business men, bankers, professional men and newspaper owners? There would be standing room for nobody else.

"Since patriotism must be eliminated as far as a possible motive for service in the citizen soldiery, there can remain but one other genuine consideration—that of preservation of law and order.

"It is of vital interest to all that there shall be law and order—particularly the interest of organized labor, as was recently observed in the State of Colorado, where, in the absence of law and order, union men were ruthlessly stripped of their constitutional rights, bullied with high-handed indignities, imprisoned in filthy bullpens, driven from their homes and families and deported from the States.

"The sheriff of the county and other elected officials, ALL UNION SYMPATHIZERS, were forced to resign at the point of a pistol, or under a hangman's noose.

"DOES ANYONE SUPPOSE THAT THIS COULD OR WOULD HAVE BEEN DONE HAD THE MEMBERSHIP OF THE COLORADO NATIONAL GUARD BEEN MADE UP OF UNION MEN?

"Would union men as soldiers ignore or encourage such things as were done in Colorado? Would these things be attempted in the presence of such a citizen soldiery, no matter by whom it was officered?

"Since union men talk of the necessity of capturing by ballot the powers of government, what is more important, in view of the use that have been and will be made of it, than THE NECESSITY OF HAVING THE PRESENCE OF UNION MEN EQUALLY FELT IN THE MILITARY as in other branches of government? Would it not be wiser for union labor to flow into the National Guard and liberalize and neutralize it?

"Union men ought to understand, at any rate, that of 'the reeking tube and iron shard' can be and are used for partisan purposes, IT IS BETTER TO HAVE THEM IN THEIR OWN HANDS THAN IN THOSE OF A HIRED ENEMY. The countercheck is the Regular Army."

The argument of the Searchlight is insidious, doubly so because it cites a flagrant example of military usurpation and couples its sinister scheme with the perfectly correct statement that the preservation of law and order is vital. It is plain that the Searchlight advises union labor men to enlist in the militia that they may control the organization and defy the lawfully constituted authority if they see fit. The advice is bad, very bad. It is not given in a frank spirit nor for a patriotic purpose. While the acts of the military in Colorado were inexcusable, as we have more than once taken occasion to say, the scheme proposed by the Searchlight is no remedy for either tyranny or disorder. It would be a good thing if the young mechanics were to enlist in the militia, but not in the spirit suggested by the Redding editor, nor for the purpose of disobeying orders if contrary to their individual opinions. The militia should not be an armed mob ready at any time to rebel against the authority placed over it by law. We should then have tyranny and disorder in an aggravated form, which would inevitably bring about a clash between the citizen soldiery of the States and the regular army.

After next November Judge Parker will be in a position to realize that one Chief Justiceship in the hand is worth two Presidencies in the bush.

Events are proving that we need a big stick in dealing with such nations as Morocco and Turkey. Finicky persons who object to the big stick on the ground that it may be misused do not seem to realize that without it American citizens and American interests are likely to be misused.

A few days ago the Woodland Democrat asked what authority THE TRIBUNE had for the statement that Carl Schurz supported Bryan in 1900. The statement was made offhand from recollection, and hence no specific authority could be given in response to the Democrat's challenge. However, we find in the St. Louis Globe-Democrat of August 2, 1904, an open letter from Congressman Richard Bartholdt, of Missouri, addressed to Carl Schurz, from which we quote the following passage: "Your support of Mr. Parker is, of course, no surprise to those who remember that in 1900, standing almost alone among the unbiased and thoughtful of your German-American countrymen, you supported Bryan." Is our Woodland contemporary satisfied? Or does it desire to dispute the proposition further?

Tolstoi's advice to his countrymen not to go to war reminds us of Jules Verne's expression when asked if he was in favor of abolishing capital punishment: "Agreed; but let the assassins begin first." The Russians would probably be only too glad to quit fighting if the Japanese would quit first. It is usually because one fellow insists on it that there is a fight. Any man who will permit himself to be insulted, abused and robbed can avoid fighting.

The Democratic organs stigmatize Elihu Root's reference, in his speech notifying Senator Fairbanks, to the age of Uncle Henry Davis as "indicate." Uncle Henry is not such a "kid" as to mind a little thing like that.

The patriarch of Wall Street—Edward B. Wesley, who is 94 years old, works every day and is worth \$20,000,000. He ascribes his long life to hard work, regular hours, and the habit of rising early. Incidentally he believes in and practices saving money. He believes employees should try to make money for their employer and never grumble when they get poor fare in a boarding house. He is opposed to grumbling of any kind—particularly on the part of employees. It is his fixed belief that if a man will only work hard and save money, get up early in the morning, and refrain from grumbling he will live to accumulate \$20,000,000 at the age of 94. What a lot of fun a man can have with twenty millions of dollars after he gets to be 94. It is worth working, saving and living 94 years to have \$20,000,000 to spend. This is the very joy of living.

The Alameda Encinal wants a whipping post erected for wife-beaters. The editor of the Enquirer seems to have forgotten that a Kentucky judge recently decided that a man has a right to whip his wife. What kind of a post would he have erected for judges who hold to this view?

## Disappointed Democratic Editors.

The Democratic editors are concerned at the absence of martial note in the President's speech of acceptance. At least, they are commenting on it in a tone indicative of disgust and disappointment. They are so accustomed to representing the President as the "wild man of Borneo" in politics, rending and devouring all who come in his way, that they are at a loss as to how to combat the calm, emperate, dignified and conservative statements of fact and policy contained in the speech accepting the nomination. They have affected to hear the clang of the war drum in every utterance of the President, and to note in the President's conduct the impish desire for a ruction that Dickens personified in Barnaby Rudge. They have pretended to be in great fear and trembling because of Mr. Roosevelt's fiery denunciation to plunge the United States into war and his fondness for rubbing his good right fist under the noses of foreign nations. Yet here is the President talking to his countrymen in a quiet, businesslike way, pointing out what has been done and indicating what is to be done, in such a collected, matter-of-fact way as to make the Democratic editors look and feel very foolish. Where is the ogre—the grinning cross between a cowboy and a gorilla—that they have been so faithfully picturing with pen and pencil? And, as if to make them appear more silly still, the intercourse of this country with foreign nations is being conducted in the spirit breathed in the speech of acceptance. Nobody is being bullied or threatened. The desire for peace is rather gapingly expressed. With such nations as Morocco and Turkey we deal firmly but sedately—there are no threats, no haste, no tearing passion to tatters. Our diplomacy proceeds quietly, deliberately, even cautiously. We are neither treading on the coat-tails of foreign nations nor trailing a coat for somebody else to step on. The President is not the center of attraction at the congress of nations twirling a big stick and daring them all to come take "a bating." Instead of sitting up at night to devise new schemes of excitement and inventing ways to make trouble, the President takes it easy at his summer home, goes rowing with his younger children, camps out all night with them by the seashore, and cooks the breakfast for them as he used to do when he hunted and herded cattle in the Far West. All this irks and vexes the Democratic editors, who are at a loss to explain why the President doesn't live up to the character they have given him. They take it as real mean that the President should speak softly and play with his children just at a time when they desire him to look fierce and prance around like Beantalk Jack's giant roaring for blood and doing other unbecomingly wild and woolly character. Truly, the President is making it hard for the Democratic editors.

Rudyard Kipling's likening of Joseph Chamberlain to Joseph of Egypt is inaccurate. The original Joseph had his coat stripped from him twice. Joey Chamberlain has voluntarily changed his twice.

No doubt Bishop Potter was actuated by the best of motives in officiating, in canonical robes, at the opening of a "model saloon," but he has laid himself open to misconception, and, what is worse, ridicule. The unco' guid hold up their hands in horror at the ungodly laugh in derision. The reflecting cannot dismiss the pregnant fact that the use of alcohol as a beverage is not to be commended. If men will drink it, there can be no question that it is better for the cause of morality and temperance that they should buy and drink it amid orderly and moral surroundings, but, unfortunately, whisky and beer will cause intoxication no matter where or how sold. As Tom Corwin once advised a young man: "Never get drunk, but if you do, get drunk with gentlemen and like a gentleman." That apparently is Bishop Potter's view, but his action has given rise to the impression in many minds that he has given episcopal sanction to the sale and use of liquor as a beverage, whereas, he only intended to promote the cause of temperance. He recognized that men will sell and drink liquor, and he is simply desirous of having it sold and drunk under conditions most conducive to moderation. Still there is an element of hilarity in giving his ecclesiastical benediction to a place in which liquor is to be dispensed as a business, no matter by whom or how.

We presume the assertion in the Democratic platform that "protection is robbery" means that the pauper labor of Europe is robbed by not being permitted to take possession of the American market.

Even Parker's gold telegram has not availed to win the Democrats of the West from the Populistic association. They have again fused with the Populists in Kansas and Nebraska, a melancholy illustration of the force of habit.

No wonder the inhabitants of Panama object to an American custom house on the isthmus. It looks like business.

## Hints for the Ladies.

For a light, dainty bit of fancy work nothing could be prettier than to embellish the undersleeves and fichus which will be worn next winter. As to material, the best will be found to be "Persian lawn," which is very sheer and has at the same time a certain "body" to it which makes working on it easier than on mull or "wash chiffon." The work itself is very different from any to which this generation is accustomed—no long stitches and general striving after "effect." On the contrary only the most careful work and delicate touch will be successful.

An ingenious little woman who lives much on the porch in summer made her sewing table from an old-fashioned, discarded heirloom with a drawer and a shelf below. The wood work was painted in white and the top of the table was covered with cretonne, edged with a pretty cotton braid held down with brass-headed tacks. Around the shelf she bound a double strip of the cretonne about three inches high, which was fastened around the bottom of the shelf and up and down each leg, with the same braid and brass tacks. This served as a slight protection for articles laid on the little shelf. To each corner of the table, just below the drawer she attached a bag or pouch, finished at the top with rubber. One was for buttons, one for cotton thread and one for silk, and the fourth for tape and other notions. A waste basket, covered with the same cretonne, served to hold large pieces of sewing, and in cases of storm table and basket can be picked up and carried onto the porch without scattering things in every direction.

Under the head of articles to be packed for the summer comes alum. At the seaside water is usually "hard" with lime and in the country it may be impure, therefore it is worth knowing that a piece of alum, suspended by string and drawn through the water several times, will destroy all organic matter or cause the lime to sink to the bottom of the vessel. You will see also that owing to this peculiar property alum makes a splendid gargle for a sore throat, a thing overture youngsters are very apt to get during the first days of the holiday.

It is a mistake for a mother to keep her son's hair long after the child is 3 or 4 years old. It is not only effeminate but is bad for the child to have these long curls. It saps the strength and, especially in warm weather, is a constant source of irritation and is often a source of secret mortification to the little sufferer who longs to be "a big man and wear his hair like father's." A generation ago a little girl's hair was kept short until she was about 12 years old. It was not a pretty fashion, but it was supposed to make the hair thick and long in later life. It depended a good deal on the individual, however, for some hair will never be thick; it is not its nature.

## DEEPENING THE CHANNEL.

A considerable time will be needed in order to dig out to its full depth and width the Ambrose Channel, which will be the chief waterway in New York harbor for the largest vessels when it is finished. Then, and not until then, will the huge Baltic be enabled to go to and from her North River pier when she is loaded to her full capacity. In the course of a dozen years there may be a dozen craft, each as big as the Baltic, voyaging across the Atlantic and entering this port every one of them finding depth of water and room enough for the transportation of every passenger and every pound of freight that can be carried within its colossal bulk. Then, indeed, will this metropolis on the verge of the sea have ample reason for pride.

## A NEW ANAESTHETIC.

At a recent medical exhibition in London a new anaesthetic, called somnoform, was shown. It is a liquid whose "boiling point" is 23 degrees below zero. The moment it comes in contact with the air it becomes a gas. The exhibitor broke a glass capsule of somnoform to illustrate its character. As soon as the glass was chipped there was a rush of what looked like steam, and sevenpence worth of somnoform was loose in the Queen's Hall trying to asphyxiate the exhibitors. Its great virtue, from a medical point of view, is that breathing stops before the heart when it is administered.

## QUEEN VICTORIA'S HAIR.

Its Great Profusion Was Always a Cause of Wonder.

Even at the age of 80 years, Queen Victoria's hair was a marvel of luxuriance. The court physician, following Prof. Unna's discovery, undoubtedly, treated her Majesty's scalp with a germ destroying preparation, that was not made public. It is now known, however, that the remedy for dandruff, the germ destroying element, is embodied in Newbro's Herpicide, the only hair preparation on the market that does destroy the dandruff germ. Without dandruff hair will grow profusely, and falling hair will be stopped. Destroy the cause, you remove the effect. Sold by leading druggists. The groom

## CHECK OPERATOR GETS COIN.

HE BEATS A SALOONMAN OUT OF A SMALL SUM OF MONEY.

Gavello & Rist, liquor dealers at 544 Broadway, complained to the police Saturday night that they had been swindled out of \$10 on Saturday, by a man who gave his name as D. E. Hall and from whom they had received a check for \$10. The check was cashed at the bank and the money was paid to the man who had given his name as D. E. Hall. He claimed that he was in the employ of the American Dredging Company and that he was going to get his pay.

## NEW COMEDY AT YE LIBERTY.

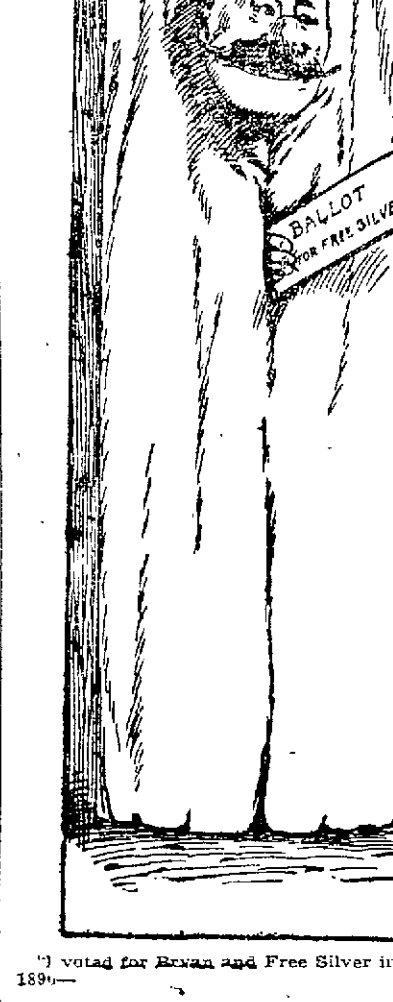

Commencing this evening, the attraction at Ye Liberty, which will undoubtedly receive the hearty support of the people of this city, will be "The Hills of California." This play is a rural comedy written by J. M. C. Bruce. It has been produced throughout the Eastern States during the last season, and it was ranked as one of the best drawing comedies that could be offered by any theater. This play should appeal very strongly to the people of California, and especially to the people of this section of the State, as the scene of the play is laid for the most part around the San Francisco bay. The people of this city will readily recognize many a familiar landmark in the scenery of the stage.

What the play has as serious parts there is a great deal of comedy worked into it, lending variety in the production of the play which should appeal to the audience.

## NEW CITY LAWS.

Mayor Olney this morning signed several ordinances which were at once returned. The ordinance providing for six extra men in the fire department and one extra man in the police department were signed. The other ordinances that were signed were making provision for a fire alarm system and authorizing the repairing of fire engines.

## VOTER PARKER AND CANDIDATE PARKER.

## BURKE MAKING EVERETT BROWN BACK FROM EAST.

A LIVELY FIGHT.

CONTEST IS INTERESTING IN THE FORTY-NINTH DISTRICT.

HAD A PLEASANT VISIT WITH SECRETARY MET.

CALF.

Deputy District Attorney Everett J. Brown returned this morning from a trip to the St. Louis Exposition, Washington, D. C., and other cities. While in Washington, Mr. Brown was the guest of Secretary of Labor and Commerce Victor H. Metcalf, who took a great interest in Mr. Brown's visit to the capital.

When seen this morning by a TRIBUNE reporter, Mr. Brown said:

"When I arrived in Omaha, I struck one of the warmest waves they had experienced in that part of the country for some time. I was considerably relieved to learn that that was not the normal condition of the weather. Before going to the Fair I traveled through Wisconsin, Minnesota and Illinois. I was astounded at the wonderful condition of the crops throughout the Middle West. I was informed that this was one of the best years the farmers have had for some time."

"I spent a very enjoyable four days at the Fair, and felt amply repaid for the trip by what I saw there. I saw the people of the Middle West, and the showing made by this State in horticulture is second to none. The mining exhibit, however, was very poor, but is not so good as that from the State of Colorado. One could always find a large number of people at the California exhibit, and it was very interesting to see the people of the California State dispensing by the California's very welcome indeed."

"Before going to Washington I stopped for a few days at Chicago, and had an opportunity of visiting the stock yards, where the great packer strike is now on. The prospects seem to be very bright, drawn struggle with bitter feeling growing more and more as the fight is prosecuted."

"At Washington I found Secretary Metcalf extremely busy. You can imagine my surprise when I learned that he was in the habit of getting to his office as early as seven o'clock in the morning. His department is one of the largest in Washington, and it covers such a wide field that the work seems almost endless. The day before I left Washington, the President mentioned the ambassador meeting that has been held for some time on the morning of my departure. I was very glad to see the President, and had a very interesting conversation with him. He is very easy to see. His trip West has enabled him to get a good view of the country, and in California, he spoke regarding the State as if he were a resident.
